

OIL AND GAS IN BOWIE WELL

Bowie, Ark., Feb. 2.—Drilling for oil in the Bowie basin, 15 miles north-east of here, was suspended Sunday when a flow of oil and gas was encountered at 700 feet. The driller, fearing inflation of the sea, refused to proceed until boilers and tank houses were removed beyond the danger zone.

LAUREL COMPANY WELL HITS SAND AT DEPTH OF 1750 FEET

Wichita Falls, Texas, Feb. 2.—The Laurel Oil and Gas company's well in block 23, Kemp-Munger-Alan district, is on top of the sand at a depth of 1750 feet. The casing is being set and the well will be completed at once. It is situated southwest of the Munger No. 1 and may be the first of the Kemp-Munger-Alan wells to be completed.

The Kemp-Wolfe test, north of the original test, has encountered sand water and in meeting with the same delays as the discovery well met some months ago. The driller is of the opinion that the sand water is coming from behind the casing as was the case in the Munger well. It will be packed and then completed.

Drilling in the Albert well in Archer county, will be delayed some time, according to company officials.

You Play Safe With Us

We Make Money For You Drilling Wells For Others.

We confidently expect to show a profit of \$2500 during this wonderful year in the Texas and New Mexico oil fields. With only three rigs we are capable of earning \$50,000. We are not in the oil business to prevent dividends on our capital. We are in it to make money. We will work the more we can multiply the dollar per month.

Join us today in the exciting world of oil.

You are not risking your money on a "wildcat" when you buy STANDARD DRILLING & DEVELOPMENT stock. We have no losses—our capital is in the oil business. We are not in the oil business to prevent dividends on our capital. We are in it to make money. We will work the more we can multiply the dollar per month.

Red River Lands Give Promise Of Big Production

Wichita Falls, Texas, Feb. 2.—A promising sand has been encountered in the United Chief Oil company's well, block 22, Waggoner colony, near the Red river, and north-west of Iowa Park at a depth of 2900 feet. This test is five miles from the nearest production and if the well becomes a producer it will be the means of proving a large tract in this neighborhood.

Oil Pressure Forces Shot To Surface; 1 Man Killed

Spice Springs, Ark., Feb. 2.—While attempting to set a shot to bring in the Atlantic's Luck No. 1, gas pressure forced the shot to the surface where it exploded, killing one man and wounding another. The explosion occurred in the well, which was being drilled by the Atlantic's Luck No. 1. The shot was being set to bring in the well, which was being drilled by the Atlantic's Luck No. 1. The shot was being set to bring in the well, which was being drilled by the Atlantic's Luck No. 1.

YOU DEPEND UPON The Eyes

Nature is seldom exact, a perfect pair of eyes is rare, and good vision is priceless.

90% of chronic headaches are caused by defective vision.

We naturally put an individual who has to hold a pen two inches away from his nose in order to read—but have you ever asked yourself, "You might be affected in the same manner, how much you would give to see as one of those who do?"

More Activity In Mexico

Roswell, N. M., Feb. 2.—The Chavez family Oil company, composed of local capitalists, which has been organized here, plans to do real development work in the near future. This company has large holdings in Chavez and Sabin counties and expects to start several drilling operations within the next 30 days. Each day adds to the oil activity in eastern New Mexico. Representatives of a number of new companies are here and indications are that several new drilling contracts will be signed soon.

PANHANDLE HAS WORLD'S BIGGEST GAS PRODUCTION

(Continued from page 1.)

How much larger the field extends north, east, south or west. But that it does extend beyond the 54,000 acres is certain since every producer there has been large and has given no indication of being at the end of the line. The total production of the six big producers in the field is approximately 26,000,000 cubic feet a day. The total production of the six big producers in the field is approximately 26,000,000 cubic feet a day. The total production of the six big producers in the field is approximately 26,000,000 cubic feet a day.

Oil Field Fate In Louisiana To Be Known Soon

Shreveport, La., Feb. 2.—A week from now Shreveport will know to a certain extent whether it will become the big oil metropolis of Louisiana like its occupants predicted, or whether it will drift along as a city without operations in the northern part of Louisiana are now nearing a stage of production or dryness. If the wells become producers, capital will speed to the field, operators will arrive on every train, factories and warehouses will spring up, money will open additional—Shreveport will grow with more rapidity than any western town of Texas. On the other hand if the wells do not produce the ambitions of Shreveport will be dashed.

Rich Profits Reached

Shreveport has reached its profits, big profits from the oil field. The hope, the belief, that some day the world would be half oil is the biggest oil town north of Tampico.

Teamsters Demand \$15 a Day in Oil Fields

Ranger, Texas, Feb. 2.—Teamsters out of Eastland have made a demand for \$15 a day in oil fields.

"DANDERNE" FOR FALLING HAIR

For a few cents you can save your hair and double its beauty.

To Peel Off Blotchy, Rough or Chapped Hands

To remove roughness, chaps, freckles, blotches on your complexion, difficulty, the best way to do it is to remove it with Danderne.

Yes, Girls

Everybody is using and talking about DANDERNE the liquid that it instantly beautifies the complexion, makes a soft, rosy-white skin every day.

WELL MAKES 1200 BARRELS

Brookridge, Texas, Feb. 2.—The Cooper Henderson Walker Company No. 1, one mile north of Brookridge, is making 1200 barrels while still in complete. This well is famous as the well drilled in five days. The pay was hit at 295 feet.

14 Years Ago Today

From The Herald of This Date, 1906

REPORTS from Washington show that the house today passed the Hepburn railroad rate bill, 242 to 171, which provides for government control and regulation of rates in such a manner as to prove effective and carry out the law.

Mayor Davis and the city council will discuss at the regular council meeting tonight the matter of street improvements, which has received a temporary setback by the refusal of the Toledo brokerage firm to purchase the bonds.

The Civic Improvement league will have an open meeting Monday afternoon in the women's club rooms, at which the principal address will be by Fabian Dan, professor of horticulture at the Montana college of agriculture and mechanic arts.

The body of a dead infant was found in the river at 11 o'clock this morning.

The gas supply failed about 1 o'clock today and among others who were inconvenienced The Herald went to press without the usual late news because the typesetting machines had become cold, thus necessitating closing of the forms.

E. P. Walsinger, who was operated on for appendicitis at Providence hospital yesterday morning, is doing well and the doctors anticipate no complications.

Fire started this morning in the photographing department of Humphreys Engraving company, and serious damage was averted by the prompt action of the employees.

Mrs. T. S. Austin will leave next week for a trip to Mexico.

Mrs. Joseph Magoffin entertained informally Wednesday afternoon.

El Paso Girl Travels to Coast, Wearing Tag Showing Destination

Yuma, Ariz., Feb. 2.—Two young women, dressed in male attire and carrying bundles, have reached Yuma after a journey from San Francisco by way of the Wind River range and broke rods, apparently expert in the art of securing transportation without price. John Adams, been found here and they have resumed feminine attire, abandoning for the time a plan to wear their way eastward. Another railroad feature was the passage westward of a young girl, named Turner, wearing an am on my way to Sacramento. She was from El Paso.

PROGRESS SLOW IN FRAUD CASE

Grand Rapids, Mich., Feb. 2.—The Newberry election conspiracy trial entered its third week today with presentation of the case far behind the speed schedule outlined by attorneys for the prosecution, who had expected to dispose of at least 20 witnesses each day. During the first week of introduction of testimony only 20 witnesses were called and there were predictions that the trial might last 10 weeks.

Washington, D. C., Feb. 2.—Al-though the National Prohibition enforcement act prevents the publication of liquor advertisements in newspapers published in this country, postmaster general Burleson called attention today to the exemption from the provision of the law of all newspapers published in foreign countries. Notice was directed at the same time to the fact that the act referred specifically to "newspapers" only and not to "publications" or "magazines."

El Paso Seed Co.'s 1920 Catalog now ready. Write or call for a copy.—Adv.

How Much Tobacco Will My Heart Stand?

A Question Vital to Every Man Who Smokes or Chews

IT MAY COST A PRECIOUS LIFE TO FIND OUT BY EXPERIMENT

The heart of every user of tobacco must be shocked by the fact that it does its allotted task and then fights nicotine for supremacy. As long as the heart wins the fight, when it loses, he dies, but before the final victory of nicotine you pass through many stages of decline and decay and suffer many losses more than you can imagine. Hearts are like human beings—some are stronger than others, therefore some hearts will stand a limit to what any heart can stand. The man who puts this additional strain on his heart a dozen times a day by smoking cigarettes, a pipe or cigars—or chewing tobacco—is taking a man's chance with health and life to lose and nothing to win, but the chance that he may not lose them. He is indulging in a costly habit at the expense of precious health. Ask any doctor any where, and he will tell you that tobacco is injurious and that it is far better to quit the habit than to experiment to find out how much tobacco your heart will stand without serious results.

SHOOK WITH NERVOUSNESS

A Lady Was Flat On Her Back With Terrible Spells, But Her Husband Got Cardui, — And No She Is Grateful.

McKinney, Texas—Mrs. Mary Stephenson, of this place, states: "About a year and a half ago I was down in bed for six weeks, not able to sit up. I was flat on my back and had terrible spells. . . . Why, it looked like I would die. At times I didn't know anything. I would get nervous. I couldn't hear anyone to talk to me. . . . I would just jerk and shake with nervousness. . . . across my back was so sore and ached me all the time. I would have a dizzy feeling. My limbs ached and I would get numb and feel so weak. . . . I said to my husband I knew Cardui was good and I believed I had best try it."

He got me a bottle of Cardui, and when I had only taken one-half bottle of Cardui I felt stronger. I took a half a dozen bottles altogether, then in two weeks after I began taking I was up in three. I was doing my work. I praise Cardui for I believe it saved my life and I am grateful."

For over 40 years Cardui has been helping weak, sick women back to health and strength. Try it.—Adv.
